

VISION

“The vision of the future of the Town of Day is grounded in the past, and in the present. Simply put, 20 years from now, the Town of Day should look and feel as it does now – rural, rustic, quiet and unspoiled with woods and lake and mountain views.”

This vision statement was adopted by the Town of Day Comprehensive Plan Committee, and is strongly supported by responses to the questionnaire survey which clearly indicates that residents would like the town to remain as it is.

To achieve this vision new growth should be predominantly residential, both year around and seasonal, rather than commercial, and should occur in a slow incremental manner and be managed in a way that minimizes impacts upon the town’s scenic beauty, rural character and natural environment. Larger residential and commercial developments should not be encouraged. Some small business development to serve local residents and tourists is envisioned, particularly in the Day Center area.
